Carmen

Live it again

There was a time
when people mastered
dance moves

When dressing fancy
was a cool idea

When a good design
lasted for decades

**All those days are now.
Live it again!**

Carmen

The new vintage Roca Collection.

Designed in 1946,
updated with today's best technology.

Dancing alone is not an option

We have brought back those days when
every dance was a language and every
move was a word

Design lasts for decades

We go back to the time when
a design would last for decades and
everything was created to inspire

Elegance, a way of life

Let's bring back the time when fancy was
a lifestyle and each detail had a meaning

The new vintage Roca Collection

Carmen is a tribute to one of Roca's most iconic basins of the 1940s. The collection comes back with a clear vintage character to become a vitreous china and furniture collection with the latest innovations in the design of bathroom spaces
